Trần Thanh Trọng

Backend Developer Intern

+84 35 989 3651 tt.trong.2108@gmail.com https://thanhtrong.dev Ho Chi Minh City, Vietnam

OBJECTIVE

Motivated Backend Developer Intern with a strong foundation in JavaScript, Node.js, Express.js, RESTful APIs, and PostgreSQL. Seeking a backend development internship where I can apply my knowledge to build reliable server-side applications, improve my practical development skills, and contribute to real-world software projects. Eager to learn from experienced developers, write clean and maintainable code, and grow toward becoming a professional backend engineer.

EDUCATION

FPT University **September 2024 - Now**

Bachelor of Software Engineering

- **GPA**: 3.2 / 4.0

PROJECTS

ParkMaster **May 2026 - July 2026**

Team Leader / Backend Developer

Description: Developed a backend system to support parking building operations, including user management, vehicle management, parking slot management, parking session tracking, and vehicle entry/exit workflows.

Responsibilities:

- Led a team of 4 members, assigned tasks, tracked progress, and coordinated the project development process.
- Designed the PostgreSQL database schema and defined relationships between core entities such as users, vehicles, parking slots, and parking sessions.
- Developed RESTful APIs using Node.js and Express.js for managing users, vehicles, parking slots, and parking sessions.
- Implemented backend logic for vehicle entry/exit workflows and parking session tracking.
- Managed the GitHub repository, reviewed source code, and supported team members during development and testing.

Technologies: Node.js, Express.js, PostgreSQL, RESTful API

Team size: 4 members

Project URL: https://parkmaster.vercel.app/

WORK EXPERIENCE

TRONG SANG TAX ACCOUNTING TRADING SERVICE CO., LTD **August 2025 - March 2026**

WordPress Website Developer

Description: Developed and maintained the company website to improve online presence, content management, and search visibility for an accounting service business.

Responsibilities:

- Developed and maintained the company website using WordPress, including theme customization, page layout design, and core website features.
- Managed website content through WordPress CMS, publishing and updating 35+ articles, pages, categories, and media assets.
- Wrote and optimized SEO-focused articles, with 15 articles ranking on Google and contributing to 12,000+ website visits.
- Improved website structure, content presentation, and user experience to support the company's online presence and search visibility.

Technologies: WordPress, WordPress CMS, SEO, Web Hosting, Content Management

Website: https://ketoantrongsang.vn/

University of Labour and Social Affairs – Campus II **January 2025 - July 2025**

LMS Module Developer

Description: Developed and deployed a custom LMS module based on lecturer requirements to support course management, student activities, and academic data handling.

Responsibilities:

- Supported lecturers in 30+ academic sessions by managing student data and operating online learning systems.
- Collected requirements from lecturers and developed a custom LMS module to support course activities and academic workflows.
- Managed academic records and administrative data for 150+ students, ensuring data accuracy and timely updates.
- Configured and deployed the LMS module on web hosting using cPanel, managed website files, database, and system operation.

Technologies: LMS Framework, cPanel, Web Hosting, Database

Website: https://lms.htttql.online/

SKILLS

JavaScript	Understand ES6+, async/await, modules, arrays, objects, and error handling
Node.js & Express.js	Build RESTful APIs, routes, middleware, controllers, services, and error handling
Database Fundamentals	Basic knowledge of SQL, PostgreSQL, and database design concepts
Git & GitHub	Use Git for version control, branching, committing, and collaboration
Teamwork	Collaborate in group projects, communicate tasks, and work with shared codebases
Problem-Solving	Analyze bugs, trace code flow, and solve backend logic problems
AI-assisted Development	Use AI tools to support debugging, code explanation, and learning documentation

CERTIFICATIONS

Stanford University Algorithms Specialization - Coursera	**2025**
IELTS Academic – Overall Band 5.5	**2024**

ACTIVITIES

STEAMHacks 2023 – STEM for Vietnam **June 2023 - August 2023**

Participant

Participated in STEAMHacks 2023 organized by STEM for Vietnam, working in a team to develop a technology-based solution and improve problem-solving, collaboration, and presentation skills.
